

**ADDENDA AND CORRIGENDA TO “INSCRIPTIONS FROM NORTHWEST PISIDIA”**

Herein are some addenda and corrigenda to P. Iversen, “Inscriptions from Northwest Pisidia”, *Epigraphica Anatolica* 48 (2015), pp. 1–85. First, at page 21, no. 10 (a dedication to the Mother of the Gods), I inadvertently did not mention that this inscription had already been published by A. Coşkun Abuagla at *Gephyra* 10, 2013, pp. 132–134 and I did not catch this mistake when the editors of *Epigraphica Anatolica* indicated in the Turkish abstract that the inscription was unpublished. This error was entirely my fault. Since I submitted my article, A. Coşkun Abuagla also published (“New Inscriptions from Pisidian Konane”, *Philia* 1, 2015, pp. 142–145) the inscriptions that appear in my article at page 22, no. 11 (a stele in honor of Thallousa) and no. 12 (a stele set up by Aur. Konon). It should be noted that Coşkun Abuagla’s text of the latter inscription is superior to that which I gave and readers are encouraged to consult it. Finally, on page 24 (at footnote 45) I had indicated that the date of the pottery found in the vicinity of some inscribed gravestones at the TOKİ Housing Complex west of Gönen (nos. 13–28) dated from the second to the fourth century CE. I am now informed that there is new information about the dating of the pottery that will be published in due course.
